

## Help The New Children's Hospital Appeal with On-Communications

### *Help The New Children's Hospital Appeal by telling your friends about our unique service.*

We all like to recommend good things to the people that we know. Whether it's restaurants, books or internet connectivity, there is nothing more compelling than a personal recommendation. With On-Communications your recommendation of our internet connectivity services can directly benefit my chosen charity.

Even if you are not a currently a user of our service, your recommendations can still directly benefit The New Children's Hospital Appeal in Manchester. For every recommendation that becomes an On-Communications' customer, we will make a donation of £150 on your behalf to The New Children's Hospital Appeal.

### *A personal message*

I have chosen to support The New Children's Hospital Appeal, because I feel there is no greater cause than helping children with serious illness and life-threatening conditions. Having seen at first hand the fantastic range of care and support activities provided by Manchester's Children's Hospitals, I was deeply touched and wanted to support the new hospital.

### *It's so easy to help*

Simply complete and email back the form on the next page to recommend a friend, business contact or acquaintance. There is no limit to the number of recommendations you can make.

I will then get in touch directly with your recommended contact. If they become an On-Communications customer, when their service goes live we will make a £150 donation to The New Children's Hospital Appeal, naming you and

Alex Morris

Senior Business Development Manager

REGISTERED CHARITY NUMBER 1049274

Part of Central Manchester and Manchester Children's University Hospitals charity.

### *Supported charity in Manchester*

The New Children's Hospital Appeal launched in May 2006 and our goal is to raise £20 million to provide the new hospital with state-of-the-art equipment to help our doctors provide our patients with the very best in diagnosis and care.

We also want to provide parental accommodation facilities so that parents can stay close to their child during treatment.

The new children's hospital will be based in central Manchester and provide the combined services of the existing children's hospitals in one state-of-the-art hospital. With 393 beds across four floors it will be the largest Children's Hospital in the UK when it opens in 2009.
