

Recommend On-Communications and help Richard House

Help Richard House by telling your friends about our unique service.

We all like to recommend good things to the people that we know. Whether its restaurants, books or internet connectivity, there is nothing more compelling than a personal recommendation. With On-Communications your recommendation of our internet connectivity services can directly benefit my chosen charity.

Even if you are not a currently a user of our service, your recommendations can still directly benefit Richard House, London's first children's hospice. For every recommendation that becomes an On-Communications' customer, we will make a donation of £150 on your behalf to Richard House.

A personal message

I have chosen to support Richard House, because I feel there is no greater cause than helping children with life-limiting and life-threatening illness. Having seen at first hand the broad range of care and support activities provided by Richard House, I was deeply touched and wanted to support their extraordinary work creating "good memories for the future".

It's so easy to help

Simply complete and email back the form on the next page to recommend a friend, business contact or acquaintance. There is no limit to the number of recommendations you can make.

I will then get in touch directly with your recommended contact. If they become an On-Communications customer, when their service goes live we will make a £150 donation to Richard House to help their great work supporting life-limited children and their families, naming you and your company as the benefactor. You will be presented with a commemorative certificate acknowledging the contribution you have enabled.

Chris House
Senior Business Development Manager
On-Communications

Richard House

London's First Children's Hospice

Charity Registration No.1059029

Supported charity in London

Richard House is a purpose built children's hospice in east London that has been providing care and support children and their families since 2000.

Their core purpose is to accompany families with children and young people with life-limiting and life-threatening conditions, during the child or young person's journey through life to death, creating positive experiences along the way which become good memories for the future.

With the help of Richard House children and young people make the most of the time they have, providing the opportunity for play and recreational activities and offering assistance to parents and siblings.
